

SCOREBOARD TO STAY.

Commissioners deny request of adjoining property owner.

The Commissioners yesterday decided that the score board being erected at American League baseball park is not a menace to surrounding property, as demanded by the Parker-Brown Company in a recent communication to the District Board.

The company, which has a factory adjoining the ball grounds, protested against the granting of the license for the erection of the score board, complaining that it would be a menace to surrounding property in case of fire. The license will not be revoked.
